School News:

Enrichment

It was the first session of the Spring Term Enrichment programme this week. Our new girls only self defence course was extremely popular as was the Fitness option at the STAR Hyb.

New courses for this term are: Driver Training - (Theory), Reading for Fun, Street Art, Design and Tech - building a 'Rocket Car', Bollywood, Childcare and Social Action Group. Policing, Crime & Forensics, Dance and First Aid return as course choices. There certainly is something for everyone.

Coed Caerdydd

This week some of our pupils have been out and about planting trees with Coed Caerdydd.

Coed Caerdydd is a 10 year programme to increase the number of trees in Cardiff, supporting the city's One Planet climate change strategy.

Tree planting is a great opportunity for pupils to gain outdoor skills, learn about nature, and enhance their local greenspace. Thank you to Miss Sansom and Miss Jury for accompanying our pupils.

Wales Millennium Centre Visit

This week some of our Year 10 pupils had the amazing opportunity to watch a matinee performance of Aladdin at the Wales Millennium Centre. Prior to this, the pupils got to see behind the scenes of a high-end theatre production and learnt about working in many different departments. Thank you to Mrs. Watkins, Miss Bell and Adrian Coles from Careers Wales for making this experience possible.

Reading is everything!

Did you know that there is a link between your child reading for pleasure and their GCSE success? At Willows, we take every pupil in KS3 to the school library once a fortnight to choose a new book. We STAR test the pupils every term to check on their reading levels – this should help them to choose books at the right level.

Your job as families?

- Check that your child has their book and is reading it every night!
- Ask questions about the book: about the plot or characters
- Listen to them read – check the book isn't too easy or too hard for them
- Make sure they are in the good habit of reading regularly

Remember, there is international evidence to suggest that this will help your child not just in English, but in *all* of their exams.

Most importantly...

Don't let your child take his/her phone to bed – take a book instead!

Cardiff Council Budget Consultation

The Local Authority has made a number of proposals to reduce its spending over the next financial year and it would like as many people as possible to have their say. Please make your voice heard by taking the short survey here: [Budget Consultation 2024-25 CFC \(snapsurveys.com\)](https://snapsurveys.com)

It is important that Cardiff residents of all ages get their voices heard. The survey is child friendly.

Storage containers:

Jillian has two plastic containers that are the same height. The dimensions of these containers are shown below:

She always seals her containers with a lid when she stores things.

A) If Jillian filled each container with water, which container would hold more water? Justify your answer.

B) Jillian has many wooden blocks that are cubes with side lengths of 4 cm. Which container would hold more blocks if the blocks had to lie flat in the container? Justify your answer.

The solution to the actual weekly question will be emailed to pupils on **Monday** with the new question.

Probability Terms – Part 3 :

Mutually exclusive events In probability, events that cannot both occur in one experiment. For example, getting heads and tails in a coin toss or rolling a 2 and a 3 on a die. When the mutually exclusive events cover all possible outcomes the sum of their probabilities is 1. If two events are mutually exclusive then $P(A \text{ or } B) = P(A) + P(B)$. This is called the addition rule.

Example: As 3 is odd and the even numbers are 2, 4 and 6 the events are mutually exclusive. The probability of the die landing on 3 is $\frac{1}{6}$ and the probability of landing on an even number is $\frac{3}{6}$. The probability of the die landing on a 3 **or** an even number is $\frac{1}{6} + \frac{3}{6} = \frac{4}{6} = \frac{2}{3}$

Numeracy Question Answer (Week 13)

Answer of the week
Week 13 – Starting 11.12.23

The Wandering Cow

A) From the time Mimi left the farm until the time she started eating grass, $35 + 18 + 26 = 79$ minutes have passed. Note that Mime Kennedy left at the time that Mimi starts eating the grass.

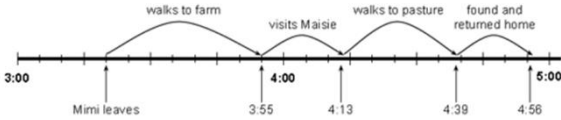

So, the 8 minutes are included in the 17 minutes of Mime Kennedy travelling. Since it was 17 minutes later that Mime Kennedy returned home with Mimi, then the total time Mimi was gone is $79 + 17 = 96$ minutes or 1 hour and 36 minutes.

B) We will look at two different solutions. So, Mimi returns home at 4:56 p.m.

1) We can add the 1 hour and 36 minutes to 3:20. Adding one hour to 3:20 gives 4:20. Adding another 36 minutes gives 4:56. So, Mimi returns home at 4:56 p.m.

2) We can make a timeline to track Mimi's travels:

Single numeracy boost sessions are provided to all our Year 7, 8 & 9 pupils on a fortnightly basis to enrich their Mathematical Skills, specifically with a focus on times tables. Pupils will be accessing their TTRS accounts and improving their knowledge of the times tables

At home, pupils must log on to TTRS via their technological devices at home. There is also a phone app that they can download via Apple or Android, free of charge.

All the pupils have 5-10 minute daily tasks on there to help consolidate their times tables. It will also earn them coins to use for customising their own individual avatars. Likewise, as with MathsWatch, there will be a leaderboard and certificates to reward their efforts.
